Sectional Results will be pulled from US or submitted by Accountant for the event to adultcompetitionseries@gmail.com

**Note:** Competition Results are displayed for the earlier competition of the season if a skater earned the same point totals at multiple events. The maximum points earned is displayed for the top 2 point earning events.

**Note 2:** Move up Points will only be displayed after registration for Sectionals closes and the Test Results submission date has passed (Feb 5, 2025).

### Move Up Points – 3 points per level, maximum 6 points per season

- A skater will earn three points towards their overall standings each time they enter a level that is higher than the level competed at the previous competition. In order to keep the extra points, the skater must compete in that level or higher in all subsequent competitions. Move up points may be awarded a maximum of two (2) times per season. In order to remain eligible for the ACS, skaters may not move up into a level that is not included in the ACS (example: adult silver).
- Move-up points will be determined based on the first level the skater competes and the level that they compete in for the free skate event at the adult sectional competition.

### Free Skate Test Points – 2 points per test, maximum 2 points per season

- A skater will earn two points towards their overall standings for passing either the Adult Pre-Bronze Free Skate Test or the Adult Bronze Free Skate test between May 24, 2024 and Feb 1, 2025.
- These points are only available for skaters who begin and end the season at the same level (pre-bronze or bronze).
- Note: In order to remain eligible for the ACS, skaters may not move up into a level that is not included in the ACS (example: adult silver).
