

## **Change in Crossover Rule (January 9, 2025)**

In an effort to provide for greater opportunity for teams to expand their rosters and provide additional competitive opportunities the following changes in the crossover rule are as follows:

- 1.) Up to 4 skaters can cross over to an additional team.
- 2.) The skaters crossing over must meet the age and test requirements of the level they are crossing over to;
- 3.) The skaters crossing over can be skaters who fir the age criteria for “Skaters outside the Age Range”
- 4.) Skaters are allowed to cross over to one other level. They cannot skate on more than 2 teams in 2 different levels.

The change in the cross over rule is effective this year (2024-2025) and next year (2025-2026). After such time the cross over rule will be reviewed to determine if this is a more permanent change we will consider.
