Re: Placards for Virtual Testing

As communicated by the Tests Committee in November 2024, skaters taking virtual tests are required to display a [placard](#) at the beginning of their video showing the skater name, test taken, host club and date of test. This is to keep skaters from using the same video for multiple tests, which is in violation of rule 4104 (B)(3). Test chairs should reject any videos that don't meet these requirements.

Implementation date: Nov. 21, 2024
